

EAM MEETING

Team Meeting

WHEN: Friday February 2nd

PURPOSE: First meeting, get to know each members

ATTENDANCE: Kyler Luong, Cyn Tran, Malik Kchaou, Jack Gerety, Kaleb Howard, Jackson Holle. (all online)

First time the whole team meets, this is when Jackson Holle, and Jack Gerety first join the team.

Members introduced ourselves and get to know each other individually

We talked about what kind of project we will work on. And discuss how the role should be fairly distributed

We didnt reach the conclusion of what kind of project we will work on, and decided to wait for the professor's project

We agreed to meet once a week when we know how we are going to work on the project, and we will communicate mainly through discord.

Team Meeting

WHEN: Thursday February 20th at 3:52pm

PURPOSE: Project Discussion,

ATTENDANCE: Kyler Luong, Cyn Tran, Malik Kchaou, Jack Gerety, Kaleb Howard, Jackson Holle.

We decided to work on the project that is described by the professor. And plan to make the project has graphic ability and can be run on a browser

Cyn Tran assigned to take meeting notes, make a Github page to submit team meeting notes.

Team decides to do the assigned class project.

Malik suggests using infix to dictate the expression to parse. We talked that we will use a stack to evaluates the Boolean Expression

Kyler Loung is assigned to document the project test case, and each member's testcase.

Everyone should make their own test case, but Loung will collect it and organize it into one document.

We discuss the responsibility of each of the team members, and each individual responsibility.

Team Meeting

WHEN: Thursday February 22nd at 3:52pm

PURPOSE: Finish Project Management Plan

ATTENDANCE: Kyler Luong, Cyn Tran, Malik Kchaou, Jack Gerety, Kaleb Howard, Jackson Holle.

We distributed the work fairly among team members in order to complete the Project Management Plan in time.

We work on filling the Project Management Plan.

We decided that we will keep working on the Project Management Plan and will meet up on Discord to go through all of the material written before submitting the final Plan

Team Meeting

WHEN: Saturday February 24th at 10am

PURPOSE: Go through finished Project Management Plan.

ATTENDANCE: Kyler Luong, Cyn Tran, Malik Kchaou, Jack Gerety, Kaleb Howard, Jackson Holle.

Everyone has finished their part in filling the Project Management Plan.

We go through the document and fix some grammar errors and sentence structure for soundness of the sentences.

All of the team members provided their personal information in Section 3 for easy communication.

Everyone agrees on the final Project Management Plan and Cyn submit the documentation on GitHub

Team Meeting

WHEN: Friday March 22nd, 2024 at 5 PM on discord

PURPOSE: Work on the Specific Requirement Plan

ATTENDANCE: Kyler Luong, Cyn Tran, Malik Kchaou, Jack Gerety, Kaleb Howard, Jackson Holle.

Everyone has already looked through the document and now talk about the project as a whole. Everyone started discussing the requirements the program needed to meet. First is functional then non functional. Then, each member explains which part they want to work on and which part they want to assist with. After taking all of their opinions, Cyn assigns each member a part of the document they need to work on. After everyone agreed, we ended the meeting.

Team Meeting

WHEN: Sunday, March 24nd, 2024 at 2 PM on discord

PURPOSE: Work on the Specific Requirement Plan

ATTENDANCE: Kyler Luong, Cyn Tran, Malik Kchaou, Jack Gerety, Kaleb Howard, Jackson Holle.

The team has finished their assigned task and goes through the document together before submitting a final version of the assignment. Everyone looked through each other's parts, and gave some additional input. However there were not many changes to make. And everyone was satisfied with the work of their teammates and themselves. We agreed on the final version, and submitted the documentation.
